

POKER RUN

2011 BENEFIT RIDE FOR KAYLEE BROWN

SPONSORED BY REASON 2 RIDE

• *Kaylee Brown was diagnosed with High Risk Acute Lymphoblastic Leukemia (ALL) July, 2010 at the tender age of 1 year.*

• *To date, Kaylee has had 19 hospital admissions, most lasting about a week due to infections and reactions to chemotherapy.*

• *Kaylee currently takes 10 different chemo drugs, some orally ingested, others administered directly into her bloodstream through a port.*

• *Kaylee is now in the maintenance period of chemotherapy, and although it is over a year away, she is looking forward to her last chemo treatment in November 2012*
